

InternSpark — Email Marketing Campaign

One promotional email + audience segmentation plan

Goal: encourage students and freshers to explore InternSpark's structured internship opportunities.

1. Campaign Details

Item	Plan
Campaign name	Start Your Career Spark
Target audience	College students, freshers and early-career learners
Main goal	Generate internship-page visits and applications
Primary CTA	Apply Now / Explore Internships
Tone	Friendly, practical, encouraging and professional
Suggested send time	Weekday evening, 6:30–8:00 PM; test against a second time slot

2. Subject Line & Preview Text

Subject: Start Your Career Spark with InternSpark

Preview text: Build practical skills through a structured, project-based internship experience.

3. Promotional Email Copy

Hi Student,

Looking for practical experience to strengthen your resume and understand how real-world projects work?

InternSpark helps learners build skills through structured, project-based internship programs.

You can explore technology-focused domains, complete practical tasks and build experience that you can discuss in your portfolio and interviews.

Why explore InternSpark?

- Practical, task-based learning
- Multiple technology and career domains
- Flexible online learning format
- Structured evaluation and documented experience

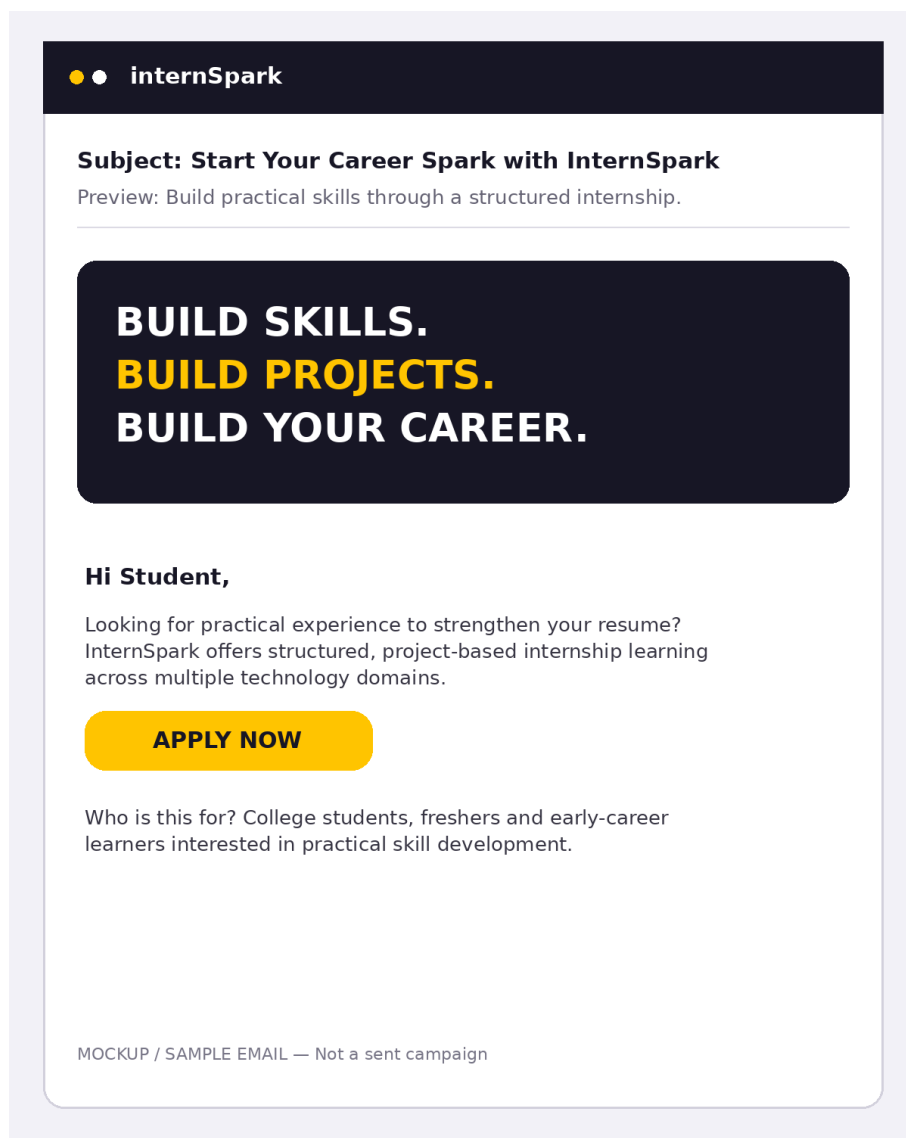

Whether you are a college student or a fresher, start with a domain that matches your interests and career goals.

Ready to take the next step?

Explore Internships → Apply Now

Best regards,
InternSpark Team

4. Email Mockup Screenshot

This is a screenshot-style email mockup created for the internship task. It is not a record of an email actually sent.

5. Audience Segmentation Notes

Segment	Message variation	CTA
College students	Focus on learning, projects, skills and portfolio building.	Explore Internships
Final-year students	Focus on practical experience, resume strength and career readiness.	Apply Now
Freshers	Focus on building first experience and domain-specific skills.	Start Learning
Technology beginners	Focus on beginner-friendly, structured learning and guided tasks.	Choose a Domain

6. Basic A/B Test Ideas

A/B test the subject line, CTA wording and send time. Example: Version A = “Start Your Career Spark with InternSpark”; Version B = “Build Real-World Skills with an Internship”. Compare open rate, click-through rate and application conversion after sufficient delivery volume.

7. Submission Checklist

Check	Deliverable
✓	Promotional email copy included
✓	Subject line included
✓	Preview text included
✓	Target audience and segmentation included
✓	Email mockup screenshot included
✓	Public Drive/Canva link to the editable design can be added before submission
